Product description

The rate-of-turn indicator systems NAVIGAT 200, NAVIGAT 2500 and NAVIGAT 3500 are based on an electronic gyro-compass and are connected to the digital multi-compass Heading Management System CompassNet for operating in a single or multi-compass configuration. Up to four (4) gyro-compasses and one (1) magnetic compass can be connected to CompassNet. The system-internal communication is based on a proprietary Ethernet-based redundant ring-bus architecture.
