VisionMaster FT turning units with Winterization Heater Kits will enable Marine Navigation Radar turning units to operate in temperatures to -55°C.

The Winterization Heater is available as a field upgrade kit for X-Band and S-Band turning units for masthead and bulkhead.
Sperry Marine

Highlights

- A comprehensive solution enabling turning unit operation down to -55°C
- Uses standard ship power supply
- X-band and S-band Winterisation Heater Kits are fully Type Approved by the Russian Maritime Register of Shipping
- Easy installation & commissioning
- Self-regulating heating element
- Can be connected to a dedicated ship’s winterisation power supply
